Judge Fowler,

I would like to tell you and the Commissioners what an outstanding job our County Election Administrator Lory Harle did during our election. She was very professional and organized. We were apprehensive about the whole process because we have not had to have an election in 10+ years. Ms. Harle trained our staff and personally came out during early voting to check and assist us. She always answered our calls and was very helpful. In most case I would say she was doing her job, but after dealing with another county during this time I can assure you she is outstanding.

In our business we do not get many people calling telling us what an outstanding job we are doing, usually the other way around. But I wanted to take the time and tell you, that she is a great representative of the county. I also want to applaud you on having the county wide voting. This is a great idea.

If you could put this on the agenda, so the Commissioners can be aware of it that would be awesome. Thank you for your service to our County and let me know if I can ever be of service.

Respectfully,

Dennis Glenn, Superintendent
