All policies (except Workers' Compensation/EL) include a blanket automatic Additional Insured endorsement [provision] that confers Additional Insured status to the certificate holder <u>only if</u> there is a written contract between the named insured and the certificate holder that requires the named insured to name the certificate holder as an Additional Insured. In the absence of such a contractual obligation on the part of the named insured insured, the certificate holder is not an Additional Insured under the policy.

All policies include a blanket automatic Waiver of Subrogation endorsement [provision] that provides this feature only when there is a written contract between the named insured and the certificate holder that requires it. In the absence of such a contractual obligation on the part of the named insured, the Waiver of Subrogation feature does not apply.

All policies (except Workers' Compensation/EL) include a blanket automatic Additional Insured endorsement [provision] that confers Additional Insured status to the certificate holder <u>only if</u> there is a written contract between the named insured and the certificate holder that requires the named insured to name the certificate holder as an Additional Insured. In the absence of such a contractual obligation on the part of the named insured insured, the certificate holder is not an Additional Insured under the policy.

All policies include a blanket automatic Waiver of Subrogation endorsement [provision] that provides this feature only when there is a written contract between the named insured and the certificate holder that requires it. In the absence of such a contractual obligation on the part of the named insured, the Waiver of Subrogation feature does not apply.
