SPECIAL ROAD USE AGREEMENT CONTRACT

THE STATE OF TEXAS }
COUNTY OF UPSHUR }

UPSHUR COUNTY, TX
KNOW ALL MEN BY THESE PRESENTS:
BY J. Ross
DEPUTY

The undersigned, Pat's Roustabout
hereinafter referred to as First Party, enters into an agreement with Upshur County
Commissioner of Precinct No. 1, Upshur County, and in order to get material to market
it is necessary to use a portion of Upshur County roads located in Precinct No. 1, over
which Commissioner has jurisdiction and obligation to maintain in good repair, and both
parties being aware of possible damage to said roads as a result of hauling on and over
same, enter into the following agreement:

1.

First Party agrees to use only that section of (described exact route, direction and miles in tenths)

1/4 mile on Rodgers Road off Hwy 259

2.

First Party agrees to use its vehicles in such a manner as not to block or interfere with
other traffic on said road, so that said road will be open to travel by the public at all
times.

3.

First Party agrees to grade, maintain and otherwise repair said road, using its own
equipment, labor and materials, if any needed, during the duration of time that First Party
is hauling oilfield equipment from lands location in Precinct No. 1, Upshur County.

4.

First Party agrees to put said road back into same condition as it was prior to the
commencement of hauling operations on the part of First Party.

5.

First Party agrees to POST PERFORMANCE BOND in the amount of \$-0-, to Upshur
County Commissioner's Court to insure performance of agreement.

6.

Nothing herein shall be construed as a waiver by the Commissioner of the authority
granted him by Article 6716, V.A.C.S., but the rights and authority granted the
Commissioner by the terms of Article 6716, V.A.C.S., are expressly reserved by the
Commissioner in the event First Party fails to abide by the conditions above set forth.

UPSHUR COUNTY, TX

The Upshur County Commissioners Court offers no objections to the location on the right-of-way of your proposed New Fiber Optic line across Armadillo Rd., as shown by accompanying drawings and Notice dated Approved, except as noted below:

DEPUTY

N/A

It is expressly understood that the Upshur County Commissioners Court does not purport, hereby, to grant and right, claim, title, or easement in or upon this county road; and it is further understood that in the future should for any reason Upshur County need to work, improve, relocate, widen, increase add to or any manner change the structure of this right-of-way line, this line, if affected, will be moved under the direction of the Upshur County Engineer and shall be relocated at the complete expense of the owner. Upshur County shall be notified a minimum of 48 hours prior to the beginning of any work.

All work on the county right-of-way shall be performed in accordance with the County Engineer's instructions. The installation shall not damage any part of the highway and adequate provisions must be made to cause minimum inconvenience to traffic and adjacent property owners. Special specifications for placing this line are as follows:

1. All ground lines are to be installed a minimum of 36 inches below the flowline of the adjacent drainage or borrow ditch.
2. All excavations within the right-of-way and not under surfacing shall be backfilled by tamping in 6 inch horizontal layers. All surplus material shall be removed from the right-of-way and the excavation finished flush with surrounding natural ground.
3. Lines crossing under surfaced roads and under surfaced cross roads within the right-of-way shall be placed by boring. Boring shall extend from crown line to crown line.
4. All lines under roads carrying pressure in excess of 50 psi shall be enclosed in satisfactory casing extending from right-of-way line to right-of-way line. Pipe used for casing may be of any type approved by the County Engineer and shall be capable of Supporting the load of roadbed and traffic and shall be so constructed that there will be no leakage of any matter through the casing for its entire length. Inside diameter of casing shall be at least 2 inches greater than the largest outside diameter of carrier pipe, joint or couplings. (Encasement is not required on lines installed 48 inches or greater below flowline.)
5. All lines, where practicable, shall be located to cross roadbed at approximately right angles thereto. No lines are to be installed under or within 50 feet of either end of a bridge unless approved by the County Engineer in writing. No lines shall be placed inside any culvert or within 10 feet of the closest point of same.
6. Parallel lines will be installed as near the right-of-way lines as is possible and no parallel line will be installed in the roadbed or between the drainage ditch and roadbed unless approved by the County Engineer in writing.
7. Overhead lines will have a minimum clearance of 18 feet above the road surface at point of crossing.
8. Operations along roadways shall be performed in such a manner that all excavated material be kept off the pavements at all times, as well as all operating equipment and materials. Do not use equipment or installation procedures which will damage any road surface or structure. The cost of any repairs to road surfaces, roadbed, structures or other right-of-way features as direct result of this installation will be borne by the owner of this line.
9. Barricades, warning signs, lights and flagmen, when necessary, shall be provided by the contractor or owner. One half of the traveled portion of the road must be open to traffic at all times. All traffic control shall be in accordance with the requirements of the current version of the Texas MUTCD.
10. Utility company shall install adequate erosion control measures for any excavation work being performed.
